## EDUCATOR EDITION

### About The Bowler's Ed Program

The Bowler's ed In-School bowling program was created as a fun, exciting addition to standard physical education lesson plans. For over 20 years Bowler's ed has helped physical education programs teach youth the importance of building and maintaining healthy minds and bodies through athletics, and to create awareness of the contribution an active lifestyle makes to achieving that goal. Developing a student's interest in sports and leisure activities reinforces this teaching and introduces them to a lifetime of competitive fun and enjoyment.

For educators and youth organizers, the Bowler's ed Program will illustrate that the skill requirements for bowling are no different than that of any other sport. Bowling requires individual coordination, timing and concentration, yet accommodates a number of participants.

Youth will discover the fun and excitement bowling has to offer. As their skills improve, they will experience a sense of accomplishment and enjoy the satisfaction of increased confidence for having mastered a new game.

Bowling is a fun, fulfilling sport that kids can enjoy for a lifetime! The Bowler's ed curriculum is designed for elementary and middle school students and offers:

- A step-by-step teaching progressions
- The history of bowling, scoring, safety and etiquette
- Fun activities that reinforce math, spelling and language arts skills
- Fitness activities to increase heart rates and get your kids moving
- A video demonstrations which shows you exactly how to teach bowling
- Advanced tips on how to bowl strikes and spares
- And much, much MORE! Log onto our website, [www.BOWLERSED.com](http://www.BOWLERSED.com), for more details

So, join the In-School Bowling Program and "get Ahead With Bowler's ed!!!"
