About The Program

The Bowler's ed In-School bowling program was created as a fun, exciting addition to standard physical education lesson plans. For over 20 years Bowler's ed has helped physical education programs teach youth the importance of building and maintaining healthy minds and bodies through athletics and to create awareness of the contribution an active lifestyle makes to achieving that goal. Developing a student's interest in sports and leisure activities reinforces this teaching and introduces them to a lifetime of competitive fun and enjoyment.

Youth will discover the fun and excitement bowling has to offer. As their skills improve, they will experience a sense of accomplishment and enjoy the satisfaction of increased confidence for having mastered a new game.

Program Includes:

- A step-by-step teaching progression
- The history of bowling, scoring, safety and etiquette
- Fun activities to increase heart rates and get your kids moving
- A video demonstration which shows you exactly how to teach bowling
- Advanced tips on how to bowl strikes and spares
- And much, much MORE! Log on to our website, www.BOWLERSED.com for more details
